

# PLANT CAPABILITIES

GT Coatings provide an extensive coating service to companies around the North East of England. With comprehensive plant equipment for Powder Coating and Wet Paint Coating, GT Coatings provides a diversified, quality service with rapid lead times.

Through continuous investment in the latest coatings technology GT Coatings provide quality surface finishes to meet the enduring demands of the Automotive and Offshore industries whilst maintaining the aesthetic quality standards required from industries such as retail.

GT Coatings have strong customer relationships which have been developed over many years through support and reaction to their customer requirements.

## POWDER COATING

| Plant            | Productivity  |            | Max. Length | Max. Height | Max. Depth |
|------------------|---|------------|-------------|-------------|------------|
| 1 x Line         | Large Batch Works   |            | 6000mm      | 1500mm      | 650mm      |
| 2 x Sml Booth    | For More Intricate Parts. <i>(Areas that may require masking / bunging)</i> | CAPACITY > |             |             |            |
| 1 x Lge Booth    | Large Heavy Items   |            | 6000mm      | 2400mm      | 2900mm     |
| 1 x Etch Booth   | Large Heavy Items   |            | 6000mm      | 2800mm      | 2000mm     |
| 1 x Lge Box Oven | Large Heavy Items   |            | 6000mm      | 2400mm      | 2900mm     |

## SHOT BLASTING

| Plant                     | Productivity            |            | Max. Length | Max. Height | Max. Depth |
|---------------------------|-------------------------|------------|-------------|-------------|------------|
| 2 x Rotary Blast Cabinets | Small - Med Batch Works | CAPACITY > | 900mm       | 800mm       | 900mm      |
| 1 x Large Blast Facility  | Large Heavy Items       |            | 6000mm      | 2800mm      | 2000mm     |

## WET PAINT

| Plant    | Productivity              |            | Max. Length | Max. Height | Max. Depth |
|----------|---------------------------|------------|-------------|-------------|------------|
| 1 x Line | Small - Large Batch Works | CAPACITY > | 2000mm      | 1500mm      | 2000mm     |

## SUB - ASSEMBLY - "More Than Simply Coatings"

GT Coatings can sub-assemble your products with its well trained and flexible work force. With our Pyrolysis oven we can also strip paint jigs, hooks and various other ferrous parts. Contact GT to understand how these additional services can add value to your next project.
